

Support and improvement of the financial interests of our communities represent a fundamental value of Old National Bank. In recognition of these values, in collaboration with community centers of influence, the Bank has developed comprehensive growth plans to support the financial and economic needs of disadvantaged and low-and-moderate-income individuals and families throughout our communities.

The Old National Bank CRA Public File provides a summary of our Community Benefit Plans. To request a copy of the complete growth plan, please contact Community.Reinvestment@oldnational.com.

An update on the performance can be found in the annual Community Action Report. [Community | Old National Bank](#)
