**Callout boxes:**

- Manage phone numbers** (up to 4). International phone numbers are supported.
- Token** - enter the credential ID.
- Authenticator** – an app the user downloads to generate a one-time access code (Google Authenticator or Microsoft Authenticator).
- Email** - toggle on to use email for login MFA, not an option for approving payments/users.
- Enter **password** to save any edits.

## Security Options

Back on the main My Settings page, the user has an additional step to setting up Authenticator. They must open the app on their phone, and either scan the QR code on the screen or enter the code manually into their authenticator app.

[Rename & Hide your accounts](#)[Alerts & Notifications](#)

Alerts & Notifications is covered in the Alerts and Notifications guide.

**Rename & Hide your accounts**

Here you can rename your accounts and hide your accounts to exclude them from everywhere. Include Account Numbers, Social Security Numbers or other confidential information in your new name. Changes you make are saved automatically.

Note: Please do not hide accounts that have scheduled transfers. Scheduled transfers to and/or from accounts may not process.
