# SUSTAINABILITY ACCOUNTING STANDARDS BOARD INDEX

This 2020 Report is Old National's first disclosure pursuant to the Industry Standards Version 2018-10 issued by the Sustainability Accounting Standards Board (SASB), an independent standards-setting organization that supports reporting for companies to identify, manage, and communicate financially-material sustainability information to their investors. While we have determined that the Commercial Banks standard is most applicable to our core business, additional Financials sector standards have been disclosed if they are relevant to a particular segment or line of business. We do not currently disclose all metrics included in the Financials sector standards but will continue to evaluate them in the future. Our commitment is to provide investors with useful, relevant, and meaningful sustainability information and we may evolve our disclosures on these SASB topics over time. All data and descriptions are as of or for the year ended December 31, 2020.
